A Front-End web developer with a strong passion for web development and leadership. I have experience in HTML, CSS, JavaScript, React, NextJs, Bootstrap, Tailwind CSS, and Chakra UII discovered web development through Re:Coded.
I entered and graduated from a 5-month intensive front-end development Bootcamp by Re:Coded and Flatiron School. I bring strong skills in Teamwork, Communication, Time management, and Agile methodologies, with these skills I can work and support teams in many different tasks.

TECHNICAL PROJECTS

Train to Maintain - Github | Demo
A project to educate people on fitness and health.
+ Designed Landing page, About page, Footer, and Meal page using Figma, reviewed by two UI/UX designers
+ Built a landing page using React and Tailwind, which navigates the user to the main sections in the website
+ Developed meal page using React and Tailwind. It contains information about the meal e.g kcal, fat, sugar..etc.

Movies Finder - Github | Demo
A project for those who are looking for their next film to watch Built with React, Bootstrap, and the movie DB API this is version 1.0 of the project and it consists of the following
+ Home page for showing the latest movies
+ Popular Movies page for showing the popular movies
+ Search functionality on the navbar using the MovieDB API search endpoint
+ Genres selecting functionality
+ movie page where you can find information about the movie you choose

Weatherly - Github | Demo
An app for searching and checking the weather in desired locations. The app is built with React, Tailwind CSS, and Weather API
